

Advisory for biomass potential map development

Main, by-products and residues

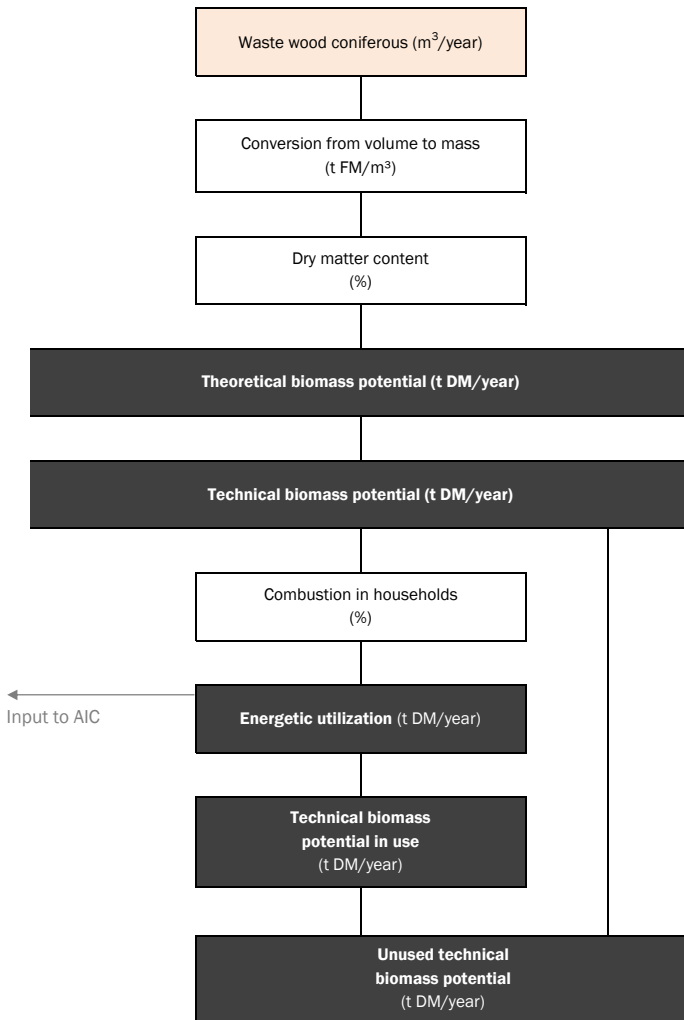

17.10.2018

ID..... WWC
Biomass..... Waste wood coniferous
 Raw material..... Coniferous wood
 Production process..... Production of wood assortments
 Definition..... Logging residues includes all parts of wood which remain nonutilised in forest, during tree cutting (branches, rut, peel, stumps).¹
 Contact..... Aleksandar Mrkobrada aleksandar.mrkobrada@gmail.com
 Mersudin Avdibegović, mavdibegovic@gmail.com

Categorization

Level-5..... Forestry biomass
 Level-4..... By-products from forestry and wood industries
 Level-3..... Logging residues
 Level-2..... Logging residues coniferous

CALCULATION

Responsible	Source of data	Update	Data quality	Spatial level
-------------	----------------	--------	--------------	---------------

[1,2,5]	Statistics [1,2,5]	Annual	■	E
---------	--------------------	--------	--------------------------------------	---

Research Institutions (Universities)	Literature [3]	One-time	■	I
--------------------------------------	----------------	----------	---------------------------------------	---

Research Institutions (Universities)	Literature [3]	One-time	■	I
--------------------------------------	----------------	----------	---------------------------------------	---

[5,6]	Expert Assessment [4]	One-time	■	N
-------	-----------------------	----------	------------------------------------	---

dynamic calculation element

Explanation & Sources:

M = Municipality; E = Entity; N = National; I = International

Due to detailed statistical database it is not needed to consider further calculation elements.
